

Year 11 Support Package 2018/19 – Mathematics

Below is a list of some of the initiatives and support packages that will be available to all Year 11 students in 2018/19;

In School Support:

- Form time/Break time/Lunch time support on key topics & skills, schedule TBC.
- Lesson time intervention consisting of small group support & mentoring - various Maths staff.
- After school study sessions (guided or self-directed study) – all Maths staff, schedule TBC.

Out of School Support:

- MyMaths – www.mymaths.co.uk - Online assessment tool, to be used for homework, and self-set revision questioning, all monitored by Maths teachers. All students already have accounts.
- GCSEpod – link on Sharepoint - See above. All students already have accounts.
- PiXL Maths App – www.mathsapp.pixl.org.uk - A full suite of resources online. Every topic at both Higher Tier and Foundation Tier.
- Revision guides & Workbooks – available to purchase for both Higher Tier and Foundation Tier, providing both easy to digest content and practice assessment material.
- Corbett Maths – www.corbettmaths.com – A world of GCSE Maths resources: Videos; Worksheets; Topic-based questions; 5-A-Day.

Half-Term/End of Term:

The Maths department put on a number of events in half-term and end-of-term holidays last year, such as an outdoor activity and Maths revision residential in the Peak District and Easter holiday revision sessions. We will be looking to provide such opportunities again this year, on an invitation-only basis (due to limited numbers).

Maths will also be taking part in the PiXL wave initiative this year, where students' mock exams will be analysed in detail by PiXL. This will result in the production of a bespoke support/revision/therapy package being developed for each student, based on their individual needs. This process will be split into 2 phases; the first being conducted in November as part of Year 11 mock exams, and the second immediately after February half term.
